Ana Seiculescu
web developer

Hello, I'm Ana, a junior in web development and a construction architect.

*Working with construction software enhances computer literacy, **problem-solving** skills, and constant **learning** which apply to software development.*

Ever since I uncovered my curiosity and passion for web development, it has become an enduring, refreshing, and splendid journey.

SKILLS

*Managing smaller projects taught me **independence** and **proactivity**, while larger ones required **teamwork**. In a small team, I had to be **flexible with responsibilities**, and we all took turns **communicating** with clients.*

Technologies I've worked with: **HTML**, **CSS**, **JavaScript**, **GIT** (version control), **GitHub**, **React.JS**, **MaterialU.**

Technologies I had brief contact with: **jQuery**, **SaaS**, **NodeJS**, **API**s, **Bootstrap**, **Vite, Postman, Docker, DBeaver.**

Other technologies: AutoCAD, Photoshop, Archicad.

*In my **Portfolio**, you can see what I've done with my learning in* projects *:*

Click on*: Portfolio, dizzyNotes, Cat caller from CatAPI, Collection Map, and Color Picker.*
